

The Growing Challenge

The non-medical use or abuse of prescription drugs remains a serious public health concern. According to the 2008 National Survey on Drug Use and Health (NSDUH), approximately 52 million Americans aged 12 or older reported non-medical use of any psychotherapeutic at some point in their lifetimes, representing 20.8% of the population aged 12 or older. Approximately 6.2 million Americans aged 12 or older reported current (past month) use of psychotherapeutic drugs for non-medical purposes, representing 2.5% of the population.

Individuals from patients to practitioners abuse the system as well. "Physician shopping" is on the rise. According to the FDA, illicit drugs use as marijuana are showing a declining trend while there is continuing upward trend for prescription drug abuse.

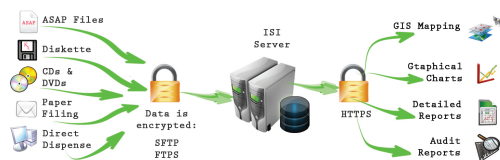

What is the best cure to reduce this growing menace? **PREVENTION!!**

THE SOLUTION: InfinitePDMP

With InfinitePDMP, Regulatory agencies have the necessary tools to combat Prescription/Controlled substance abuse. Our Robust tools allow Prescribers from preventing crime before it happens and allows Enforcement agencies to accelerate enforcement actions.

Quick Tour of InfinitePDMP: Versatile Data Collection & Data Validation

Transmission Mode

Secure Web upload - Online web upload
Secure FTP - SFTP and FTPS secure file transfer protocol support
Mail Media - CD, Floppy, flash drive sent through mail
Modem Dialup - Allows users to connect to InfiniteCURES through ISI provided dialup connection
Fax - Send paper forms through FAX
Paper forms by mail - Send paper form through mail
Real time data collection - allows real time data submission

File Processor

Adaptive Parser - Parser determines type of file and parses accordingly
Instant notification - Email notification to users
Mail Notification - Confirmation through post cards if required

Real time data processing - instant processing of data/instant access to processed results

Supported file types

ASAP 95	- American Society for Automation in Pharmacy 95 format
ASAP 2005	- American Society for Automation in Pharmacy 2005 format
ASAP 2007	- American Society for Automation in Pharmacy 2007 format
Excel	- ASAP content in standard excel format (provided by ISI to Pharmacies)
CSV	- ASAP content in coma separated value format (provided by ISI to Pharmacies)
Fixed length text file	- ASAP content in plain text format (provided by ISI to Pharmacies)

Comprehensive Account Types

Pharmacies/Chain Pharmacies - Independent and small pharmacies/Large pharmacy chains
Clinics - Direct dispensing clinics and associated doctors
Vendor - Third party software provider providing software and upload service
Doctors - Doctors practicing at more than one location with different DEA numbers.
Veterinarians - Animal practitioners practicing at one or more than one location with different DEA numbers and reporting independently.

User Management

User registration - Online/Fax/email/phone enrollment for all account types.
Add sub registrations - Ability to add sub accounts and DEA's
User profile management - Ability to manage primary contact and sub account details.

Complete Suite of Online Applications

Direct dispense Application

Allows Pharmacies/Practitioners without an electronic system to submit data online.

Zero fill Application

Allows Pharmacies/Practitioners to report no prescription drug reporting for the reporting period. Ability to submit Single Zero fill and Multi Zero fill (for multiple DEA numbers and chain pharmacies)

Activity History Application

Ability to view and print proof of files upload by selecting period.
Error correction Application
Allows users to View, Correc

Practitioner/Patient Activity Report (PAR)

Doctor Shopping
Practitioner prescribing history
Practitioner Patient history
Patient Activity Report
Drug Usage Report - Usage of drugs by region, gender, age group and time.
Threshold Reports - Dynamic reports triggered by threshold criteria.
Practitioner Activity report
Prescription report
And many more to list....

Flex Reporting

InfinitePDMP provides agencies and prescribers the capability to make informed decisions quickly. Our reporting tool allows users to generate statistical reports, charts, and ad hoc reports to review/monitor/analyze Prescriber/Dispenser/Patient activities. InfinitePDMP's Ad Hoc Reporting, allows users to generate custom reports tailored to specific needs. GIS Reports provides users geographic information that betters analysis. Some typical InfinitePDMP Reports: Electronic Signature - Weekly activity - Weekly Data Collection - Processed File Report - Error/Warning - Reporting Pharmacy - Zero Fill Reports - Non Reporting Pharmacy - File Rejection - Missing DEA Number - Invalid DEA Number - Practitioner Report - Threshold Reports - Performance Reports - Harold Rogers, NASPER REPORT, etc. - And many more to list....

Department Interface

Data exchange - Dedicated secured FTP connection to Agencies
ASAP Format - Conversion of all files to one single file or Agency defined groups RAW files - Agency access to raw data files (electronic/paper/media) received from users

Training and Support

InfinitePDMP is a user friendly application developed with user ease in mind. Ample training videos are included in our portal for 24/7 access. Agencies are backed by InfinitePDMP support team for any technical help for the life of the contract.

Call support

Phone Support - Business hours phone support (Toll free support if required)
Ticketing System Support - Online ticketing system to report and track issues, for end users
Email Support - Process and technical support through email
Training - Onsite and remote training/ongoing periodic webinar trainings

Online support

FAQ - Automated update of FAQ to website
Video training - Training video for users based on functionality.
News and events - Email notification of news, events and alerts.

Hosting and Data Security

InfinitePDMP incorporates extreme measures to assure that the data submitted is secure and in compliance with HIPAA regulations. All communications using InfinitePDMP channel is secure and encrypted. Our audit trail feature allows easy verification and analysis of user access, information accessed, and for what use.

Elaborate Data Retention, Disaster recovery, fail over, data recovery plans included
Class A data center for Secure Hosting

Unleash the power of Reliable/Accurate PDMP Program

- ❑ A Complete Web based PDMP suite
- ❑ Flexible and Easily Customizable Custom Of The Shelf (COTS) Solution
- ❑ User Friendly ADA Compliant Interfaces that incorporate web 2.0 features
- ❑ Real Time data Collection/Processing
- ❑ HIPAA Compliant with State of the Art Security Features and Extensive Audit Trails
- ❑ Robust Standard/Custom Ad Hoc Graphical Reporting and Analytic Capabilities
- ❑ GIS Integration for Spatial perspective

Refined
Exceptional value!!

Platinum
A must have element!

Platinum Ore
30x rarer than gold

InfinitePDMP Platinum Suite

Save lives, Prevent crime, Eliminate diversion...Priceless!!!

InfiniteCollect

A Versatile Data Collection application that collects Data through multiple modes

InfiniteASAP

A Powerful multi format parser application

InfinitePAR

A User friendly Patient Activity Reporting application

InfiniteAnalytics

A Potent Analytical tool to Prevent Diversion and Assist Enforcement

Our Health Information Technology Practice:
InfinitePDMP - Over 100 million prescriptions processed for California Electronic Health Records (EHR)

- ❑ CareMatrix - Small Doctor Offices and Clinics
- ❑ InfiniteVista - Electronic Health Records
- ❑ InfiniteDMS - Digitizing Existing Medical Records

Telemedicine

- ❑ InfiniteCommunicator - Telediagnosis, Telereading, Teleconsult,
- ❑ Remote monitoring etc.

CCORP - California Coronary Artery Surgery Outcome Reporting
